

2022-2023 Group Visit Guide

Exhibits • Workshops • Programs

Create a bridge between formal and informal learning with hands-on science experiences!

200 Museum Drive, Lansing, MI 48933 | (517) 485-8116

impression5.org • [@myimpression5](https://www.instagram.com/myimpression5) • [facebook.com/impression5](https://www.facebook.com/impression5)

PLEASE RECYCLE

Interactive Exhibits

Impression 5 Science Center's exhibit area provides a self-chosen, learner-directed environment with the tools and freedom to interactively discover science! Explore the exhibit area in a path that suits your interests while making meaningful connections with science.

First Impression Room

The *First Impression Room* is a space for young scientists from birth to age four to experience and learn about science in a comfortable and customized environment. It's complete with a family restroom, private nursing room, Crocs™ and raincoats for the water area, and more!

FLOW: A Water Experience

FLOW explores fluid dynamics with interactive components and activities! Build and test your own sailboat, explore a vortex, power a giant flywheel that shoots a two-story geyser, play with water jets, and more, all while soaking up the science of the world's most magnificent natural resource—water!

Build Zone

What types of structures can you build? How does gravity, tension, and compression affect your structure? Get ready to become an engineer as you build with a variety of materials. *Build Zone* features magnetic Panelcraft, bridge building, blocks, and more! This exhibit promotes team building and problem solving. What will you create together?

Throwing Things

Where does the energy come from to launch a ball through the air? Experiment with kinetic and potential energy using air cannons, trebuchets, and bottle rockets as your tools! Explore the laws of motion, ballistics, and energy while pitching, launching, and catapulting with high-energy activities that integrate new technology.

Think Tank

Discover a space for student innovators ages 9 and up to put their minds and hands to the test as they experience a true maker lab! Turn your ideas into reality with real tools, real challenges, and real outcomes! Whether you have 10 minutes or the whole afternoon, *Think Tank* will keep your mind and imagination innovating. Open hours vary.

Interactive Exhibits

Spectrum

Explore the electromagnetic spectrum and test different light sources, lenses, prisms and mirrors, and more! Step up to our life-size Light Mosaic to create your own colorful masterpiece, then strike a pose at the Shadow Wall. You can see how plasma reacts to a conductor and experiment with primary colors!

Chew On This!

Explore the science of your mouth by using microscopes and magnifying lenses to see teeth like never before. Play with a giant mouth as you discover how your mouth works, why it's important for eating and communicating, and how to care for your teeth. Say *ahhhhh*! as you dive deeper into the science of your mouth!

SMASH: A Nuclear Adventure

Experience the world of nuclear science by building atoms, discovering ways to create new isotopes, using models to explore concepts you can't see, and imagining what the future of nuclear science holds!

MI Nature

What does the world look like through the eyes of a naturalist? Explore the natural environments of Michigan while never setting foot outside the Science Center! With a variety of new technological tools, challenge your thinking skills as you get up close and personal with living systems, just like a naturalist in the field!

Nano

Immerse yourself in nanoscale science, engineering, and technology! This exhibit introduces you to real world nano applications and explores the societal and ethical implications of this new technology. Play with magnetic materials and more!

POP! A Bubble Experience

In *POP!*, explore how soap and water molecules interact to create the structure of a bubble. Learn about the chemistry of soap films, create beautiful forms and colors, and even stand inside a giant bubble!

Workshops & Experiences

Add workshops or experiences to enhance your epic group science adventure!

Choose between Science Experiences or In-Depth Science Workshops that meet Next Generation Science Standards!

Science Experiences (25-30 min.)

Slime

Discover how molecules interact in solids and liquids! Learn about other basic chemistry principles, such as physical and chemical changes. Learners then mix ingredients to create their own colorful slime to take home!

Fee: \$2.00 /student **Grades:** All

Light

Explore the fascinating world of light! Identify various sources of light and explore the concepts of reflection and refraction with hands-on experimentation.

Fee: \$2.00/student **Grades:** All

Circuit Builders

Experiment with Snap Circuits, alter the path of an electron, discover power sources, and investigate the difference between series and parallel circuits. Learners will use the four components of any circuit to test and experiment in this exploratory workshop!

Fee: \$2.00/student **Grades:** All

Static Electricity (Only available Sept. 2021 - April 2022)

Experiment with different uses of static electricity and explore conductors, insulators, circuits, currents, and more! Learners see firsthand the powerful effects of static electricity with our Van de Graaff generator in a shocking and hair-raising experience.

Fee: \$2.00/student **Grades:** All

In-Depth Science Workshops

Paper Circuits (45 min.)

Explore the science of electrical currents by creating a paper circuit with batteries, LEDs, and copper tape. Learners explore complexities of switches and paths of electricity while creating their own unique paper circuit.

Fee: \$3.00/student **Grades:** 3 & up

Biospheres (30 min.)

Learners explore water and carbon cycles while making a biome, then get their hands in the dirt and explore what's needed for a self-contained system! Learn about plants and how the water cycle works. Plus, each learner brings home their own biosphere!

Fee: \$3.00/student **Grades:** All

Force & Motion (45 min.)

Explore the science of force and motion, and participate in a variety of challenges to help build an understanding of motion, speed, acceleration, gravity, friction, and force!

Fee: \$3.00/student **Grades:** All

Engineering Design Challenge (45 min.)

Learners are given an engineering challenge they must overcome by designing and prototyping a device. Engage in the design process and experiment with multiple device iterations to achieve maximum success!

Fee: \$3.00/student **Grades:** All

Custom Group Programs

Experience hands-on STEM-focused programs, exhibits, and workshops with your students! Leave it to Impression 5 to bring science to life and introduce intriguing content to help your students make meaningful connections to science principles through these unique Science Center programs.

Virtual STEM Program

We bring the science to you! Watch as science comes alive in your classroom. We specialize in hands-on science exploration and dynamic inquiry-based learning. With a variety of lessons connected to Next Generation Science Standards, you will receive all materials for each student to engage virtually in 4 science lessons with one of our educators. Your virtual lessons will reinforce a hands-on science approach and engage students in science skills, such as observation, problem-solving, and engineering design. Virtual STEM is a program that's customized to fit any grade and group size.

Fee: \$64/student

BIG Science Lesson

Immerse your students in a 4-day science lesson and explore science like never before!

All activities are co-developed with Impression 5 staff and are designed to fit Next Generation Science Standards. During this teacher-led BIG Science Lesson, Impression 5 staff provide interactive presentations, behind-the-scenes tours, investigations, experiments, reflective discussions, and more during your custom, interdisciplinary lessons!

Teachers: this is a great opportunity to develop an in-depth relationship with our exhibits, staff, and science resources!

Fee: \$48.00/student per week (Tuesday-Friday only)

Generation Science

This engineering-focused program combines the experience of a visit to the Science Center with a classroom outreach! Students have the opportunity to explore science in their classroom, and then join us for a full day at Impression 5! All lessons are designed with Next Generation Science Standards in mind and are adapted to what you need to provide your students with maximum exposure to science concepts. Generation Science is a program that's customized to fit any grade and group size.

Fee: price varies

Custom Science Days

Not seeing something you like?

With custom science days, you can customize a multiple day science lesson to fit the needs of your students. All activities are developed with Impression 5 staff & designed to fit next generation science standards.

Fee: \$12/student/day (2-day minimum)

Plan Your Visit!

Choose the exhibits, workshops, and programs you want to experience based on your classroom's specific needs and learning goals!

Options to consider for your visit:

Group Admission Rate

Schools and other established organizations are eligible for a group admission rate of \$10.00 per child with a reservation. Teachers accompanying a reserved group receive FREE admission. **Groups receive one FREE chaperone admission with every 5 paid student admissions**, any additional chaperones will receive the group admission rate of \$10.00.

Scholarships

Need-based scholarships are available for students who want to participate in Impression 5 programs. For more information, please contact our Reservation Coordinator at (517) 485-8116, ext. 132 or [apply online](#).

Lunch Area

If you choose to visit us during mealtime, you can reserve our lunch area for your students and chaperones. Our lunchroom accommodates up to 75 guests!

Fee: \$25.00/25 minutes

Impression 5 TO GO

Be sure to make time for shopping in Impression 5's science store during your visit. Our gift store is fully stocked with educational toys, t-shirts, and unique gift items. You can also browse a large selection of science books for a variety of reading levels. Don't let the science discovery end when you leave!

Before you call, please be prepared with the following information:

1. Name of your school or organization
2. Your phone number and email address
3. Name and phone number of the person in charge on the day of your visit
4. Date you'd like to visit (and two alternates, just in case)
5. Your planned arrival and departure times
6. Number of students and adults in your group
7. Your group's address for confirmation and billing
8. Your mode of transportation (e.g. carpool or school bus)
9. Age or grade level of the students
10. Workshops you would like to reserve
11. Any lunch or shopping plans
12. Any additional/special accommodations needed

[You can also submit your group visit requests online!](#)

Once your reservation is complete, we will send you a confirmation email including logistical details, a parking map, and an invoice to assist you in preparing payment.

Payment is required on or before the date of your visit.

Need assistance planning your visit?

Contact our Reservations Coordinator if you:

- Have any questions
- Need ideas regarding how to make the most of your visit
- Need help choosing a date/time for the best experience
- Need to discuss any accommodations
- Would like to reserve additional resources during your visit:
 - Sensory Backpacks (headphones, social stories, fidgets)
 - Adult Wheelchair
 - Weighted Blanket

Impression 5 Information

Visit: Impression 5 Science Center
200 Museum Drive
Lansing, MI 48933

Call: **Science Center: (517) 485-8116**

- Reservations Coordinator: Ext. 132
- Big Science and Custom Lessons: Ext. 205
- Virtual STEM Program: Ext. 205

Email: reservations@impression5.org

Park: On site parking is limited; we strongly recommend chaperones carpool.

Bus parking available only on Museum Drive.

Information for the Day of Your Visit

For any changes to your reservation, please call our Reservations Coordinator at (517) 485-8116 ext. 132. Changes requested less than two weeks before your visit may not be possible.

Arrival

- **We recommend that chaperones carpool or ride on buses if possible, as free onsite parking is limited.**
- If arriving via bus or minibus, please wait in the bus drop off lane as indicated on the map and have the group stay on the bus until directed otherwise by a staff member.
- Running late? Please call our Reservations Coordinator at **(517) 485-8116 x132** as soon as possible.

Reserved Experiences

- Your group will receive maps marked with the locations of your workshops and lunch room reservations when you arrive.
- If your group has multiple workshop sessions, please assign students to specific times before your visit.
- Please note that our lunch room space is shared between group visits and daily guests, so we are only able to accommodate your group in this space during your reserved time(s).

Other Tips

- The First Impression Room is reserved for our youngest learners, ages birth to four years old. If your group has children in this age range, we would appreciate if a maximum of 20 guests visit the First Impression Room at once to allow space for daily visitors as well.
- If your group is planning to shop at our gift shop, we ask that you spread out shopping over your entire visit. It is helpful for adults to accompany shoppers, as calculating taxes can be tricky and opening packaging can be tempting.
- There are restrooms on both floors – single person restrooms are on the first floor, and multi-stall restrooms are on the second floor. Water fountains and bottle fillers are located near both restrooms.
- The Guest Services desk on the first floor is a good place to ask for information, check in if lost, in need of first aid, or are looking for a missing item.
- After your bus orientation, we will connect with the group leaders to get an accurate count and collect payment.
