

# Spring 2023 L.A.B.S. Camps

Learning About Basic Science

Learn about basic science in fun and interactive day camps for ages 5 to 11. Camps run from 9 a.m.–4 p.m. Before & after care are included with drop off as early as 8 a.m. and pick up by 5:30 p.m. Please pack a snack & sack lunch each day.

**Members:** \$60/day **Not-Yet Members:** \$75/day

## Monday, March 27 Science of Star Wars

Journey with us to a galaxy far, far away as we investigate the science of outer space! Explore the physics of flight, paint your own nebula, and design a bassinet to keep Baby Grogu safe! Learn to wield invisible force fields and decide whether you'll use your new power as a Jedi or a Sith!

## Tuesday, March 28 Fairy Tale Science

Prepare yourself for magic, adventure and a scientific happily ever after! Walk in the shadow of dragons, discover the science behind a wizard's spell, create sparkling fairy lights, and more! Come recreate the wonder of your favorite fairy tales!

## Wednesday, March 29 DC Heroes and Villains

If you love DC superheroes and villains, then this camp is for you! We're investigating the science behind DC characters, from Batman's gadgets to Superman's laser vision. We'll end our super science day with a visit to our newest traveling exhibit DC Super Heroes!

## Thursday, March 30 Cars - Science of Speed

Life is a highway, and we're gonna cruise through this day of mechanical engineering! Explore the physics behind cars as you design and prototype your own model car. Explore forces that help a car keep moving or slow it down. Ka-Chow!

## Friday, March 31 The LEGO™ Movie

Unleash your creativity designing and building with LEGO™s! You'll create totally unique constructions, build strong structures, and prove that everything really is awesome. Complete challenges throughout the day to defeat President Business!

Sparking  50 years of curiosity
